

Fever Policy for Columbia County Schools

In accordance with new regulations set forth by the Centers for Disease Control (CDC), the school system has established a policy which requires students to be fever-free (less than 100 degrees via oral thermometer) for 24 hours prior to returning to school. Additionally, the fever should be gone without the use of a fever-reducing medicine.

Thank you in advance for your support of this policy, and we wish your family good health for the remainder of the school year.
